

SECTION 1: PURPOSE

The purpose of these Specific Terms and Conditions, which are complementary to NEXUS' General Terms and Conditions of Service, is to define the technical and financial terms and conditions pursuant to which NEXUS agrees to rent and host on its platform the Customer's dedicated internet server.

The Customer hereby recognizes expressly that NEXUS shall not participate in any way in the design, development, realization and set-up of the Customer's website and/or services and of its management and administrative up computer tools within the meaning of this agreement.

In the event of a conflict between the General Terms and Conditions and these Specific Terms and Conditions, the latter shall prevail.

SECTION 2: MEANS

The NEXUS platform server, where the Customer's dedicated server will be installed shall be accessible to the public dedicated on the internet network via stations connected to the network.

SECTION 3: TECHNICAL SUPPORT

Technical assistance is made available to the Customer by NEXUS pursuant to the terms and conditions provided under the General Terms and Conditions of Service.

SECTION 4: DELIVERY OF SERVICE TERMS AND CONDITIONS

NEXUS shall inform the Customer by e mail when the dedicated server becomes available. Invoicing shall begin on the effective date of the online launching of the dedicated server.

The server shall become available within a maximum of 7 days of the effective payment date by the Customer of the purchase order. After such deadline has expired and if NEXUS fails to make available the server to the Customer, said Customer server shall be entitled to request the cancellation of the transaction and the reimbursement of amounts already paid.

The server rented to the Customer shall remain the property of NEXUS. Any server rented or hosted by NEXUS has a static IP address. The server shall be hosted on NEXUS' server platform. The Customer is the administrator of the server rented from NEXUS. He/It may install on his/its own the software applications on the server. He/It is fully responsible for the software installation, and NEXUS may not be held liable for any server malfunction following such installation.

SECTION 5: NEXUS' OBLIGATIONS

NEXUS agrees to use all due care and due dispatch to provide a quality service in compliance with professional standards and the state of the art. NEXUS agrees to:

Originally Effective : 01-Oct-2013

5.1. Keep the material in good working condition. In the event of failure of the material rented out to the Customer, NEXUS agrees to replace any defective parts at its earliest convenience, except in cases where it is not liable for the failure, or of any other intervention which would require an interruption of service beyond the usual replacement wait times. In the latter case, NEXUS shall immediately notify the Customer.

5.2. Ensure access to the server via internet 24 hours a day, every day of the year. NEXUS reserves the right to interrupt the server for a technical intervention designed to improve its operation.

5.3. At the customer's request intervene quickly in the event of a malfunction not resulting from a misuse of the server by the Customer.

5.4. Ensure that its tools are maintained at the highest quality level in compliance with professional rules and standards.

SECTION 6: NEXUS' LIABILITIES

NEXUS reserves the right to interrupt the rented server's internet connection if such server constitutes a danger regarding the maintenance of security on NEXUS' hosting platform, whether this is as a result of the piracy of such platform, server, the detection of a flaw in the security system, or the need to update the server.

NEXUS shall, to the extent possible, notify the Customer in advance and within a reasonable deadline, by informing him/it of the nature and the length of the intervention, in order to enable such Customer to make arrangements in that regard. NEXUS shall restore the connection as soon as the corrective measures have been completed.

NEXUS shall not be liable for the content of information, sound, text, images, elements of form, or data accessible on the websites hosted on the Customer's server, which are transmitted or placed online by the Customer for any e reason whatsoever.

NEXUS shall not be liable in case of a violation, in whole or in part, of an obligation or of a network operators' flaw in transmission to the internet, especially if it involves its access provider(s).

LIMITED LIABILITY

THE CUSTOMER ACKNOWLEDGES THAT NEXUS AUTHORIZES OTHER SERVICE USERS TO INSTALL THEIR WEBSITES AND SERVERS IN ITS FACILITIES. NEXUS SHALL NOT BE LIABLE IN ANY WAY WHATSOEVER FOR DAMAGES, COSTS OR LOSSES INCURRED BY THE CUSTOMER (OR BY THE LATTER'S OWN CUSTOMERS) AND CAUSED BY ANOTHER SERVICE USER'S ACT, MATERIAL OR FAILURE TO ACT. NEXUS') LIABILITY IN CONTRACT, IN TORT (INCLUDING NEGLIGENCE) BY STATUTE, OR OTHERWISE, TO THE CUSTOMER (OR THE LATTER'S OWN CUSTOMERS), CONCERNING PERFORMANCE OR NONNON PERFORMANCE, AS APPLICABLE, OF ANY OBLIGATION CREATED UNDER THIS AGREEMENT, WITH LICABLE, REGARD TO ANY CLAIM, SHALL BE LIMITED AND SHALL NOT, IN THE AGGREGATE, EXCEED THE TOTAL FEES PAID BY THE

Originally Effective : 01-Oct-2013

CUSTOMER TO NEXUS UNDER THIS AGREEMENT IN THE ONE- (1-) MONTH PERIOD IMMEDIATELY PRECEDING THE DATE ON WHICH THE CLAIM AROSE. IN NO EVENT SHALL NEXUS BE LIABLE FOR ANY LOST PROFITS, OR ANY SPECIAL, INDIRECT, CONSEQUENTIAL, INCIDENTAL OR PUNITIVE DAMAGES.

SECTION 7: CUSTOMER'S OBLIGATIONS AND LIABILITIES

7.1 With respect to hosting, the Customer shall remain solely and exclusively responsible for the server. It is therefore the Customer's responsibility to take all the required measures to insure the server. The Customer may either elect to become his/its own insurer or to purchase appropriate insurance. In such cases, the Customer shall not be entitled to request any reimbursement, replacement or compensation whatsoever from NEXUS for damages or failures to the server.

7.2 The Customer acts as an independent entity and therefore assumes all the risks related to his/its activities. The Customer is solely liable with regard to the use of the services and websites hosted on his/its dedicated server, the content of the information transmitted, posted or collected, including operations and updates, as well as information with regard to all files, including address files. The Customer agrees, more specifically, to comply with the rights of third parties, human rights, and intellectual property rights, such as copyrights, patent rights or trademarks. NEXUS property shall therefore not be liable, in any way whatsoever, for the content of information transmitted, posted or collected, used, and updated, as well as for any files, including address files.

NEXUS alerts the Customer as to the legal consequences that could result from unlawful activities on the server, and disclaims any joint and several liabilities regarding the use of the data made available by the Customer to internet users.

The Customer shall also refrain from any breach or attempted breach activities (such as port scanning, sniffing, spoofing, etc.) while using the server.

In such cases, the Customer shall not be entitled to the reimbursement by NEXUS of amounts already paid in.

7.3 The Customer alone shall bear the consequences of a server malfunction resulting from the use by his/its staff or by any other person to whom the Customer has provided his/its password(s). The Customer shall also bear alone the consequences resulting from the loss of such password(s).

7.4 In order to maintain the security level of the Customer's server, and of all its servers on its hosting platform, NEXUS agrees to notify the Customer of the availability of updates for its applications where security flaws have been reported. If these application updates are not carried out at NEXUS' request, NEXUS reserves the right to interrupt the server's connection to the internet network.

Similarly, in the event NEXUS detects that a Customer's computer is subject to piracy, an e-mail shall be sent to such Customer, advising him/it that he/it should use a reinstallation procedure in order to ensure the integrity of his/its server and of the entire hosting platform. The Customer may order such procedure from NEXUS after backing up all platform. his/its data. While awaiting the computer's

Originally Effective : 01-Oct-2013

reinstallation, NEXUS reserves the right to interrupt the server's is/its connection to the internet network. NEXUS is not required to transfer the data from the pirated system to the new system; such operation is the Customer's responsibility. NEXUS hereby agrees to limit its intervention to the Customer's installation of the new system.

7.5 Because of security concerns, all IRC services (including bots, proxy, bouncer, etc.) shall be first registered. NEXUS reserves the right to reject certain registrations.

7.6 The Customer shall take all required measures to ensure the backup of his/its data.

7.7 The Customer shall pay for any license or right to use he/it has agreed to with NEXUS, or with a third party, failing which, NEXUS reserves the right to suspend the service without prior notice.

7.8 NEXUS reserves the right to check the Customer's compliance with the provisions regarding use of the service.

NEXUS reserves the right to suspend the service without prior notice, as provided under section 7 of NEXUS' general service terms and conditions, in the event the Customer fails to comply with NEXUS' specific and general terms and NEXUS' conditions of service and, generally, with all laws and regulations in force, as well as with rights of third parties.

7.9 The Customer is reminded that NEXUS' intervention in connection with the contract on a dedicated server is limited to installing the server. NEXUS only insures in that regard the rental of a specialized infrastructure, without any control whatsoever over the content of the hosted websites or the contractual relationship between the sites' editor and their Web host, an NEXUS Customer under a dedicated server rental contract. The Customer shall therefore be considered a Web host.

7.10 The Customer acknowledges and agrees to be also subject to the laws applicable in the territory on which the equipment are installed. Hence, the Customer acknowledges NEXUS' right to suspend his service if it is used for a prohibited activity at the place of physical location of the equipment provided by NEXUS. The Customer also agrees that the same right applies on IP addresses and the Customer acknowledges NEXUS' right to suspend an IP if it is used for a prohibited activity at the place of registration of the IP. In the event of such use, NEXUS may suspend all the IP address of the Customer registered in the same location.

SECTION 8: BANDWIDTH

Bandwidth: computer data rate in bits per second, and determining the exchange capacity between the server and the NEXUS network. NEXUS guarantees bandwidth up to the rate shown on the NEXUS site for the concerned range of server. The bandwidth is no longer guaranteed when the server or servers are used for the following activities:

- Anonymization service (proxy), CDN service;
- Storage Platform or file exchange (including but not limited to cyberlocker);

Originally Effective : 01-Oct-2013

- Downloading platform;
- Service bypassing limitations imposed by downloading platforms (downloaders);
- Platform for watching online videos;
- Server(s) used for downloading and sending files on peer to peer networks (including but not limited to seedbox).

In addition, NEXUS cannot guarantee the bandwidth when the server activity requires an intensive bandwidth use. In this case, NEXUS will contact the client to explore his consumption in detail.

SECTION 9: MEASURES AGAINST SPAM SENDING FROM NEXUS NETWORK

NEXUS works with its datacenter partner to implementing a set of technical measures to fight against the sending for fraudulent e-mails as well of SPAM from its infrastructures.

To this end, NEXUS performs some verification on the traffic sent from the server used by the client to port 25 (SMTP) on the Internet. The traffic is analyzed by automatic tools .

Emails sending are neither filtered nor intercepted but checked with a time lag of a few seconds. These operations are performed in parallel and in sequentially before the emails are sent to the Internet.

Similarly, no operation is performed on the emails sent. NEXUS does not tag emails, and does not alter in any way the emails sent by the Client. No information is stored by NEXUS during these operations outside of statistics.

This operation is done regularly and is fully automatic. No human intervention is performed when checking traffic when to port 25 (SMTP port).

In the case of the emails sent from a Client's server identified as spam or fraudulent, NEXUS will inform the Client by email and will block the SMTP server port. NEXUS does not retain any copies of emails sent from the SMTP Server even when identified as spam.

The Customer may request the unblocking of the SMTP port once they have corrected the issue.

Any new email identified as spam will result in a new blocking of the SMTP port for a longer time blocking time.

From the third blocking, NEXUS reserves the right to refuse any request to unblock the SMTP port.

SECTION 10: MITIGATION (PROTECTION FROM DOS AND DDOS ATTACKS)

NEXUS is working with its datacenter partners in implementing a protection against Denial Of Service (DOS) and Distributed Denial Of Service (DDOS) computer attacks and provided when made in a massive way. This feature is intended to prevent the Customer's operations to be during the attack.

Originally Effective : 01-Oct-2013

The object of this feature is to check the traffic to the Customer's Service and from outside of the NEXUS network. The illegitimate qualified traffic is then rejected upstream in the Client's infrastructure, allowing legitimate users access the Service despite the undergoing cyber attack.

These safeguards do not prevent other computer attacks such as SQL injection, brute force security vulnerabilities' exploitation etc.

Due to the great complexity of this Protection Service, NEXUS is not subject to an obligation of means; it is possible Service that the attack is not detected by the tools in place, and that the tools developed do not prevent the operation of place the Service to be interrupted.

Depending on the nature of the attack and its complexity, NEXUS deploy protection at different levels of traffic to preserve its infrastructure and the Customer Service infrastructure. Mitigation is activated only after the attack is detected by NEXUS tools, and a minimum of 26 hours. Therefore until the activation of mitigation, the Service is frontally affected by the attack, which can lead to its unavailability.

As soon as the cyber-attack is identified and mitigation is automatically activated, mitigation cannot be disabled until the end of a 26 hours period.

Throughout the duration of the activation of mitigation NEXUS cannot guarantee the availability and accessibility of mitigation, the Client's applications but will try to limit the impact of this attack on Customer's Service and on NEXUS' Infrastructure.

If, despite the activation of mitigation, the cyber-attack is likely to jeopardize the integrity of the NEXUS' or of other NEXUS customers, NEXUS will strengthen its protective measures which may cause a degradation of the Customer Service or impact its availability.

Finally, it is possible that some of the data generated by the attack cannot be detected by the NEXUS equipment and reach the Customer Service. The effectiveness of mitigation also depends on the configuration of the Customer's Service; as such, it is up to them to verify that they have the necessary skills to ensure proper administration.

The mitigation does not exempt the Client to secure its Service, to implement security tools (firewalls ...), to ...) regularly update its system, backup its data or to ensure the security of its computer programs (scripts, codes ...).

SECTION 11: RATES AND INVOICING

At this time, NEXUS maintains a "Small Provider" status with the CRA, and does not charge and/or collect taxes. The following paragraphs are provided should the tax rate become applicable.

The rates indicated on NEXUS' website do not include applicable taxes.

Originally Effective : 01-Oct-2013

The rates vary, based on the range of services and the rent term selected by the Customer when ordering. The rate indicated on the purchase order edited by NEXUS shall represent the total amount to be paid by the Customer.

Because the offer may not be modified once the contract is in effect, the Customer shall be required to determine which offer best suits his/its needs. The main IPv4 of a dedicated server is included in the server's renting cost and can never be charged for as an independent element of the service.

SECTION 12: ADDITIONAL IP SERVICES

NEXUS can offer a number of additional IPv4s, which may or may not be charged for. Since the growing scarcity of IPv4s in different countries across the world means growing purchase costs, NEXUS may apply charges to IPv4s that have previously been offered free of charge.

In the case where an IPv4 that had previously been free of charge becomes billable, the client will be offered the choice to either accept the charge, or release the concerned IPv4.

SECTION 13: TERMINATION OF AGREEMENT

The Customer acknowledges and agrees that services shall be rendered on a monthly basis, with payment in advance of services, and services shall be provisioned for a full billing cycle.

Should the Customer submit a request for termination of the agreement, the termination will become effective at the end of the current billing cycle. The customer may, at NEXUS' discretion, be provided with a refund of advanced monies, on a case by case basis.

Termination of the agreement by NEXUS based on documented breach of this or agreement, amended agreement, or co-existing agreement that forms the base of the terms and conditions of service provisioning shall not be considered grounds for refund.
